Union Minister of Road Transport and Highways Nitin Gadkari on Monday called on investors from the US to invest in Indian highway projects, adding that India's potential for public-private partnership (PPP) has been globally recognised, and the sector is poised for growth. Addressing the India-US Economic Summit, Gadkari said the government had already set into motion the wheels of innovative joint venture instruments, such as the National

Highways Authority of India Infrastructure Investment Trust (InvIT), which saw a ₹6,100 crore investment from foreign institutional investors. **BS REPORTER**

# Govt to develop 'electric highways'

Union road transport and highways minister Nitin Gadkari.

The government is working on developing 'electric highways' powered by solar energy that will facilitate the charging of heavy duty trucks and buses, Union road transport and highways minister Nitin Gadkari said on Monday. Addressing an event organized by the Indo-American Chamber of Commerce (IACC), Gadkari reiterated that the government wants to develop India's public transport system on electricity. "The government is strongly encouraging solar and wind energy-based charging mechanisms for electric mobility.

"We are also working on developing electric highways, which will be powered by solar energy and this will facilitate charging of heavy duty trucks and buses while running," he said.

An electric highway generally refers to a road which supplies power to vehicles travelling on it, including through overhead power lines.

Gadkari said that the government is also encouraging toll plazas to be powered by solar energy. The minister said the road ministry has conducted route optimization exercises across major corridors and has designed a newer alignment. **PTI**

The highways will enable charging of buses and trucks, Nitin Gadkari said.

kari emphasised. "We are constructing 26 greenfield expressways," he said.

Projects will get faster clearance and it would cut down logistic costs, with the launch of PM Gati Shakti Master Plan, he said.

India and the US are natural partners, the minister said and invited private entities of the US to invest in India's logistics, ropeways and cable car sectors.

Around 3 crore trees would be planted along the national highways and the government is adopting tree plantation practices along with construction and expansion of highways, he said.

"We have successfully transplanted 27,000 trees in national highways projects," Gadkari said. The government is formulating a new policy called "Tree Bank' for tree cutting and tree plantation, he said.

# **Gadkari seeks US investment** in road & highway projects

He also noted that India & US were prominent democracies of the world with strong bilateral relations

STATESMAN NEWS SERVICE NEW DELHL 12 SEPTEMBER

escribing the roads and highways sector in India as a gold mine for investors, Union Minister for Road Transport Nitin Gadkari today called for greater investments by US companies in this sector.

Inaugurating virtually the 19th Indo-US Economic Summit of The Indo-American Chamber of Commerce, he noted that India and the US were prominent democracies of the world with strong bilateral relations."We are natural partners and have a lot to contribute to mutual growth. Both the countries have always shown mutual trust, respect, and cooperation on the social, economic, and strategic fronts," he added.

Gadkari said the government's emphasis has been on creating a sustainable business ecosystem with an inclusive growth model. "We need

to encourage out-of-the-box thought process and promote creative agenda to weave new pathways," he said and noted that Prime Minister Narendra Modi has set a vision for India to become a S five trillion dollar economy by 2025. The minister emphasised that today. India was one of the fastest growing economies and stood at the

well-developed infrastructure enhanced economic activity created new businesses and promoted job creation. 'Our government is investing\$1.4 trillion in infrastructure development through the National Infrastructure Pipeline. The road sector will account for 19 per cent of this capital expendi-

ture over a period of 2019 to 2025." he said.

Gadkari said the government baslaunched the Prime Minister National Gati Shakti Master Plan for holistic and integrated infrastructure development in the country. With Gati-Shakti all stakeholders would follow the rule of 3 C's: Copperation, Coordination & Communication

the minister said the road infrastructure played a critical role in the growth of the Indian economy as 70 per cent of goods and nearly 90 per cent of passenger traffic used the road network to commute. "In 2014, we had around 91,000 kms of National Highway network. At present, this network has reached around 1.47 Lakh Kms. The government is sincerely working toward expanding the National Highwaynetwork to 2 lakh kilometers by 2025," he added. The minister said the government was constructing 27 greenfield expressways of 10,000 Km across the country with an investment of Rs 5 lakh crores. These corridors result in a 14 per cent reduc-tion in travel distance between the key economic centers and this would further ensure a reduction in the transportation cost by 2.5 per cent. In addition, there would be a saving of around 110 crore liters of fuel and a reduction of carbon dioxide emission by 250 crorekgevery year, he said.

# सरकार इलेक्ट्रिक राजमार्ग के विकास पर कर रही काम : गडकरी

#### आज समाज नेटवर्क

नई दिल्ली। केंद्रीय सड़क परिवहन एवं राजमार्ग मंत्री नितिन गडकरी ने सोमवार को कहा कि सरकार सौर ऊर्जा के जरिये इलेक्ट्रिक राजमार्गों के विकास पर काम कर रही है। यह कदम अधिक माल ढुलाई क्षमता वाले ट्रकों और बसों की चार्जिंग को सुगम बनाएगा। उद्योग मंडल इंडो-अमेरिकन चैंबर ऑफ कॉमर्स (आईएसीसी) के कार्यक्रम को संबोधित करते हुए गडकरी ने यह बात दोहरायी कि सरकार देश की सार्वजनिक परिवहन व्यवस्था को बिजली चालित बनाना चाहती है।

उन्होंने कहा, सरकार इलेक्ट्रिक वाहनों के लिये सौर और पवन ऊर्जा ऊर्जा आधारित चार्जिंग व्यवस्था के विकास को प्रोत्साहित कर रही है। मंत्री ने कहा, हम इलेक्ट्रिक राजमार्ग के विकास पर भी काम कर रहे हैं। वह सौर ऊर्जा के जरिये संचालित होंगे। इससे भारी माल दुलाई क्षमता वाले वाले ट्रकों और बसों को यात्रा के दौरान चार्ज करने में सुविधा होगी। एक इलेक्ट्रिक राजमार्ग से आशय ऐसी सड़क से है जो उसपर यात्रा करने वाले वाहनों को बिजली की आपूर्ति करती है। इसमें ओवरहेड बिजली की लाइन के जरिये ऊर्जा की आपूर्ति शामिल है।

गडकरी ने कहा कि सड़क मंत्रालय टोल प्लाजा को सौर ऊर्जा से चलाने के लिये भी प्रोत्साहित कर रहा है। उन्होंने कहा कि एक अच्छी तरह से विकसित बुनियादी ढांचा आर्थिक गतिविधियों को बढ़ाता है, नई कंपनियां सुजित करता है और रोजगार के अवसर बढ़ाता है। हम 26 नये एक्सप्रेसवे का निर्माण कर रहे हैं। गडकरी ने कहा कि पीएम गति शक्ति मास्टर प्लान की शुरूआत के साथ परियोजनाओं को तेजी से मंजूरी मिलेगी और इससे

लॉजिस्टिक लागत में कमी आएगी। उन्होंने कहा कि भारत और अमेरिका दोनों स्वाभाविक भागीदार हैं। उन्होंने अमेरिका के निजी निवेशकों को भारत के लॉजिस्टिक, रोपवे और केबल कार क्षेत्रों में निवेश के लिये आर्मोत्रत किया।

मंत्री ने यह भी कहा कि करीब तीन करोड़ पेड़ राष्ट्रीय राजमार्गों के आसपास लगाये जाएंगे और सरकार राजमार्गों के निर्माण और विस्तार के दौरान पेड़ लगाने के चलन को अपना रही है। अबतक हमने राष्ट्रीय राजमार्ग परियोजनाओं में 27,000 पेड़ एक जगह से दूसरी जगह सफलतापूर्वक लगाये हैं। गडकरी ने कहा कि सरकार पेड़ काटने और लगाने के लिये पेड़ बैंक नाम से नई नीति बना रही है।

# Govt working on developing electric highways powered by solar energy: Gadkari

New Delhi, Sept 12 (IANS) : The government is working on developing electric highways, powered by solar energy, that will facilitate the charging of heavy duty trucks and buses, Union Road Transport and Highways Minister Nitin Gadkari said on September 12.

Addressing an event organised by the Indo-American Chamber of Commerce (IACC), Mr. Gadkari reiterated that the government wants to develop India's public transport system on electricity.

"The government is strongly encouraging solar and wind energy-based charging mechanisms for electric mobility. "We are also working on developing electric highways, which will be powered by solar energy and this will facilitate charging of heavy duty trucks and buses while running," he said. An electric highway generally refers to a road which supplies power to vehicles travelling on it, including through overhead power lines. Mr. Gadkari said that the government is also encouraging oll plazas to be powered by

solar energy. The Minister said the Road Ministry has conducted route optimisation exercises across major corridors and has designed a newer alignment.

Emphasising that a well developed infrastructure enhances economic activities, creates new businesses and promotes job creation, Mr. Gadkari said, "We are constructing 26 greenfield expressways." With the launch of PM Gati Shakti Master Plan, he said projects will get faster clearance and it would cut down logistic costs. Stating that both India and the

U.S. are natural partners, the

Minister invited the U. S. private investors to invest in India's logistics, ropeways and cable car sectors.

He informed that around three crore trees would be planted along the National Highways and the government is adopting tree plantation practices while construction and expansion of Highways. "And till now we have successfully transplanted 27,000 trees in National Highways projects," he said. According to Mr. Gadkari, the government is formulating a new policy called "Tree Bank' for tree cutting and tree plantation.

As per policy, authorities such as National Highways Authority of India, The National Highways and Infrastructure Development Corporation Limited will have to maintain a tree bank account of planting trees during the project development. The Union government is also

Ine Union government is also conducting a pilot project for an automatic number plate recognition system with a view to reducing traffic congestion at toll plazas and charging vehicle owners for the exact distance of cars driven on the tolled Highways, Union Minister Nitin Gadkari said

"The Ministry of Road

Transport and Highways is conducting a pilot project of automatic number plate recognition system (Automatic Number Plate Reader cameras) to enable automated toll collection without stopping the vehicles. "With this new technology, we

"With this new technology, we want to achieve two objectives free flow of traffic on toll booths and pay as per your use," he said, without giving further details. During 2018-19, the average waiting time for vehicles at toll plazas was eight minutes.

Waning time for ventcles at our plazas was eight minutes. With the introduction of FASTags during 2020-21 and 2021-22, the average waiting time for vehicles has now come down to 47 seconds.

Although that is a considerable improvement in the waiting time, at certain locations, especially near cities, and densely populated towns, there are still some delays at toll plazas during rush hourse

# Invest in infra projects in India: Gadkari to US

#### IANS NEW DELHI

Union Minister for Road Transport and Highways, Nitin Gadkari called for investors from the US to come forward and invest in roads and highways projects in India which is a goldmine for investors.

The Union Minister also talked about Electric Highway which will be powered by solar which will facilitate charging of heavy duty trucks and buses while running.

Inaugurating virtually the Indo-US Economic Summit of the Indo-American Chamber of Commerce, he said the US and India are prominent democracies of the World with strong bilateral relations. "We are natural partners and have a lot to contribute for mutual growth. Both the countries have always shown mutual trust, respect and co-operation on the social, economic and strategic

front. The theme chosen this year 'The New Agenda for next 25 years' will set the roadmap for strengthening our relationship," he added.

He said that the government is bringing innovative and investor friendly products like InvIT to allow retail investors participate in the funding drive. "We are designing products so that retail investors can get good annual returns which are more than the fixed deposit rates," he said adding that the chamber should take a lead and identify areas where our talented human resources can contribute to design best financial instruments to enable investments in Indian infra space.

"We have well-developed framework for PPP in the highway sector. ADB has ranked India at the first spot in PPP operational maturity and also designated India as a developed market for PPPs. All project documentation, contractual decisions and approvals are now being done through the digital portal," the minister added.
